

I listen and support K-LOVE Radio which is on 91.1 in my area. I believe that K-LOVE provides an invaluable service to my local community. It is the only station that provides contemporary Christian music without a lot of talk and no commercials. It supports all Christian denominations and doesn't trash any other religion. It is a very positive station. It would be a great loss if K-LOVE were to be displaced by an LPFM broadcaster. To me it would be devastating to lose the encouraging message of K-LOVE and I believe that it is in the public's best interest to make sure that it is not lost.
